DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 24 and 25 rejected under 35 U.S.C. 102(b) as being anticipated by Nakagawa et al. (U. S. Patent No. 6, 078, 617).

Regarding claim 24, Nakagawa et al. discloses a video encoder (see Fig. 1) for non-predictive intra encoding (column 5, lines 33-35) of a macroblock having at least one partition, the encoder comprising:

a reference picture weighting applicator (see Fig. 1, block 7) which applies motion vectors (weights) to the reference pictures (see column 6, lines 27-38), wherein the weights (motion vectors) are zero for intra-coding (see column 9, lines 5-21 and column 10, line 60-column 11, line 7); and

a reference picture weighting factor unit (Fig. 1, block 6, column 6, lines 26-38) in signal communication with the reference picture weighting applicator for assigning weighting factors (motion vectors) corresponding to the at least one non-predictive intra coded partition, wherein the weights (motion vectors) are zero for intra-coding (see column 9, lines 5-21 and column 10, line 30-column 11, line 7).

Regarding claim 25, Nakagawa et al. discloses non-predictive intra-coding means (see Fig. 1) for intra-coding the at least one partition by providing a reference picture index (prediction picture combined with motion vector) that is associated with a weighting factor of zero (see column 10, line 60-column 11, line 7).

Allowable Subject Matter

3. Claims 1-23 and 27 are allowable over prior art references.
4. Claim 26 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
